ABOUT ME

I'm a software engineer, community mgr, and cybersecurity analyst fluent in Dutch, English & Spanish. With a passion for tech & commitment to excellence, I bring unique perspectives to projects. Skilled in software dev, community mgmt & security analysis. Able to communicate effectively for exceptional results.

EDUCATION

Community Management Expert

Facebook Blueprint | 2017 - 2018

During this course, I learned about best practices in online community management and how to use Facebook tools to create and maintain an active and engaged community. I learned about the importance of goal setting, content planning, monitoring, and measuring success in community management. I also had the opportunity to delve into engagement strategy and how to encourage community member participation.

Software Engineer

Codecademy | 2015 - 2017

In-depth knowledge of HTML, CSS, JavaScript and other web programming languages.
Knowledge of relational and non-relational databases such as MySQL and MongoDB.
Knowledge of agile software development methodologies.

SKILLS

Professional Skills

HTML , CSS, Javascript

Cybersecurity

MySQL, MongoDB

Application

Motivation

Creativity

EXPERIENCE

Community Manager

Pizza Uno Mijas | May 2017 - Sept 2018

I was responsible for managing and creating content for the brand's social media platforms. I used tools like Hootsuite to schedule and post across different platforms, and also monitored interaction with followers through brand mentions and monitoring.

Community Manager

N2People | Sept 2019 - Sept 2020

I worked closely with the marketing team to plan and execute online campaigns. I used tools like Canva to design eye-catching images for posts, and I also used Google Analytics to campaigns and adjust them accordingly.

Community Manager

OttoWorkForce | Oct 2020 - March 2022

I supervised and responded to sponsor questions and comments on social media and the crowdfunding platform. I used tools like Slack to communicate with the team and keep a record of interactions with sponsors

Full Stack Engineer

Freelancer | Oct 2017 - Currently

I developed more than 25 websites. Including e-commerce. I have made penetration testing for several bussineses. - Xcode , Wordpress, React.
